Software Engineer

Employment

[Frontend Web Developer] Alright Tech

May 2022

July 2022

Designed and Developed Responsive Frontend Designs. Designed a sleek dashboard fully responsive per the customer demands.

Worked in collaboration with other developers to design few Ui designs through figma.

Improved the design aesthetics of few new prototypes and old sites.

[Full Stack Mern Developer @TechLift] Contour Software

Mar 2023

May 2023

At TechLift, I honed my Object-Oriented Programming skills and managed team GitHub repos. I led the of a full-stack Blogging app using the MERN stack, incorporating React Query, Hooks, and JWT authentication.

[Full Stack Mern Intern] Elite It

July 2023

At Elite IT as a MERN Intern, I focus extensively on backend development with Express, Node.js, and MongoDB. I utilize serverless solutions like Realm, craft RESTful APIs, I ensure cross-platform compatibility, and prioritize security. I test with Postman, document with Swagger, and validate using Joi.

[FINAL YEAR PROJECT]

Smart Phone gaming with Kinect in Virtual Reality:

Low-cost Smart Phone Virtual Reality Game which uses Microsoft Kinect sensor for detecting user's gestures and Body motion data to control the in-game characters in real time. Which is consisting of natural user interface and this provides an interactive way to provide more immersion.
